STATEWIDE POLICY RECOMMENDATIONS

In addition to critical COVID-19 efforts, the Partnership calls on State leaders to take the following actions to provide relief to low-income families struggling with unaffordable and unstable housing:

- Initiate a \$10 billion statewide housing bond to fund five more years of affordable housing for low-income families and people experiencing homelessness.
- Permanently fund local governments to implement flexible homelessness solutions by recapturing \$2.4 billion per year lost through corporate tax loopholes and reductions.
- Make permanent the \$500 million expansion of the state Low-Income Housing Tax Credit to increase affordable housing production through public/private partnerships.
- Empower voters to support building affordable homes locally by lowering the supermajority approval threshold required for housing ballot measures to 55%.
- Fund the conversion of commercial properties and market-rate rental properties occupied by low-income households into affordable homes.
- Allow new apartment and condominium developments to be built in commercial and mixed-use zones when at least 20% of the homes are affordable to low-income households.
- Speed the construction of affordable homes and reduce uncertainty and costs by streamlining the award of state funding for affordable housing developments from four different state agencies into one decision-making process.

LOCAL POLICY RECOMMENDATIONS FOR PLACER COUNTY

1. All local policies should be created and analyzed using a racial equity lens to affirmatively further fair housing. In addition, to address continuing impacts of the pandemic, policies should be adopted to get people off the street, keep people in their homes and continue building new affordable rental homes.
2. Support and advocate for State adoption of Roadmap Home 2030 (<https://roadmaphome2030.org>) strategies.
3. Create or strengthen local housing trust funds with local revenue sources (e.g., in lieu fees, commercial linkage fees, real estate transfer tax, document record fee, luxury tax, or local affordable housing bonds, etc.). Adequate local funds for leverage are critical to effectively compete for State housing funding.
4. Reduce impact fees and allow their deferral until occupancy for affordable housing.
5. Require developers to set aside a specified percentage of units in all new developments for lower income households or dedicate land and pay fees sufficient to build the same number of units.
6. Create opportunities for the development of permanent supportive housing for people experiencing homelessness by identifying appropriate sites and properties and prioritizing local funding for that use.
7. Provide targeted first-time homebuyer programs to communities who have historically been denied access to homeownership using State homeownership funds through CalHFA and HCD.
